4/16/2023	5	3	3			5			
Est. Capacity(hours)	25	11	15	23	3	35			
Team Total Capaciy	1								
109									
Step 2: Review the Project Backlog	and gather User Stories that	have an estimated work effor	t close to the team of	capacity and by priority. (Hide the	e estimated hours for breakdo	wn.)			
As a User, I will be able to view my exi	isting appointments on the cale	ndar.							
As a User, I will be able to add or remo	ove appointments on my calend	dar.							
As a User, I will be able to delete crime									
As a User, I will be able to upload docu	uments to my storage.								
As a User, I will be able to edit projects	s that I created.								
As a User, I will be able to delete proje	ects that I created.								
As a User, I will be view a price chart for	or services and projects.								
As a Property Manager, I will be able to	o view my past service ratings.								
As a Property Manager, I will be able to	o request a frequency rate char	nge for a current service.							
As a Property Manager, I will be able to	o request a service cancellation	n for a current service.							
Step 3: Assign a User Story to each	member and they will have to	o be solely responsible for ha	ndling its completio	n. Then have each person break	down their User Story into tas	ks with an estimated guess			
of how many hours to be complete.									
Ahbay				Comments for Reasons or Disagree					
User story				As Edit and Delete follows the same to design, test, and implement.	e pattern as Add Project, I think	those should not be too hard			
As a User, I will be able to edit projects									
As a User, I will be able to delete proje									
As a User, I will be view a price chart for Tasks:	or services and projects.		Hours
